Each set packed into a plastic bag and then four sets placed into a strong double wall export quality carton.

## Weight / Volume / Dimensions

**Gross weight / packing unit:** 14 Kg

**Volume / packing unit:** 0.06 m<sup>3</sup>

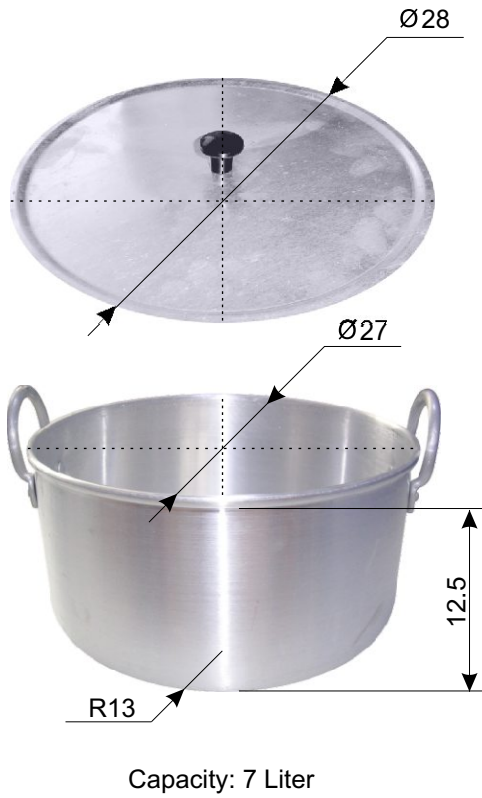

## Comments

Quality Requirements in conformity to international / national standards.

**Stainless steel 18/10 is an acceptable alternative providing it meets the same strengths as the specifications above. The cooking pots would need to have a thick base.**
